Profile

I am a globally minded Computer Science student with a passion for contributing to the international community, not only through technological innovation, but also by fostering meaningful cross-cultural relationships. I aim to promote cultural understanding, share knowledge, and raise awareness across borders, believing that collaboration and empathy are key to further advancing global empathy and collaboration.

Education

City University of Hong Kong
Computer Science

Hong Kong

Santa Laurensia Senior High School.
GPA: 3.91

Tangerang , Banten
June 2025

Experience

Larfa in Vitro
